

**PRESS INFORMATION**

Bonn, 01. September 2017

**Beta Klinik – Facts and Figures**

- The Beta Klinik was founded as a head and spine clinic in Bonn in 2008. Today there are more than 30 different specialist areas whose experts work together offering out-patient and full hospitalisation services. The Beta Klinik has highly specialised doctors' practices as well as a fully operational clinic all under one roof.
- Included in the specialist areas are: Anaesthetics, Angiology, Ophthalmology, General Surgery, Dermatology and Allergy, Endocrinology and Diabetology, Gynaecology and Senology, Ear Nose and Throat medicine, Cardiology and interventional Cardiology, Naturopathy and Homeopathy, Internal Medicine and Gastroenterology, Internal Medicine and Naturopathy, Laboratory Medicine, Oncology, Orthopaedics, Joint Surgery and Joint Prosthetics, Plastic / Cosmetic Surgery, Neuroradiology and Children's' Radiology, Neurosurgery, Neurology and Epileptology, Nuclear Medicine, Preventative Medicine (Check-ups / Nutrition), Proctology, Psychosomatic, Psychiatry, Sports Medicine and Rehabilitation, Urology and Dental Medicine. On the Beta Klinik premises, you will also find Dr. Seibt Genomics GmbH and a branch of the Zentrum für Gesundheit GmbH.
- The Beta Klinik follows a holistic and integrated approach and all doctors and therapists work as an interdisciplinary team. The patient is always the focus of our attention.
- The Concept: Highly specialised and top quality diagnostics and treatment.

**PRESS INFORMATION**

- Both conservative and operative therapy methods are used. Gentle and minimally invasive procedures are favoured for any surgical intervention for both outpatient and hospitalised stays.
- More than 240 employees are employed, amongst whom are 60 doctors from different specialist areas, all working in the clinic and doctors' practices towards the individual and holistic care of patients.
- 50 comfortable rooms are available and health permitting, you also have the possibility of staying in the adjoining Hotel Kameha Grand Hotel.
- The patients of the Beta Klinik come from the surrounding areas of Bonn and south Rhineland, the rest of Germany and from abroad, particularly from Europe, the Middle East and Asia with a special focus on China and Malaysia as well as the United States of America.
- The Clinic has three operating theatres as well as a recovery room and an intensive care unit of the highest technical standards.
- The most modern medical technology: two different high field Magnetic Resonance Imaging Scanners (MRI), multi-slice Computer Tomography (CT), left heart catheter, X-ray equipment, ultrasound equipment, digital mammography with tomosynthesis, endoscopy equipment, surgical high performance microscope, neuronavigation and shock wave therapy equipment.
- Cooperation with other medical centres includes with the University Clinics of Bonn, Düsseldorf, Essen, the Centre for Integrated Oncology (CIO Cologne, Bonn), Dr Seibt Genomics, a molecular biological gene analysis centre, Kinderwunschzentrum Bonner Bogen, Fiagon, a manufacturer of clinical navigation systems, Arthrex, a manufacturer of endoscopic medical technology, and Pro Nursing.
- The BetaGenese Klinik was founded in 2014 as a subsidiary. In close co-operation with the Beta Klinik, patients with psychosomatic complaints can be treated as inpatients or as semi inpatients.

**PRESS INFORMATION**

- Since the summer of 2017, the Beta Klinik offers Asian patients, among others, naturopathic and preventive medicine through Beta Preventive Healthcare (Beta PHC).
